

Week beginning 28th January

We began the week dressed as characters from Peter Pan! We saw lots of pirates, Tinkerbells and Peter Pans wandering around the school! In the afternoon we watched the performance of Peter Pan and we all thoroughly enjoyed it, especially when Mrs Mavin and Mrs Campbell-Smith had to get up and dance!

Maths

This week we have been focusing on subtraction. We learnt how to subtract a two digit number from another two digit number using an unstructured number line.

English

At the beginning of the week we watched clips of world record attempts and then completed a table of what record attempts our class would be good at and who would hold the title. Next we wrote a report about the record attempts and had to remember to include the suffixes -est and -er, e.g. who was the tallest, comparing who's hands were smaller and who had the smelliest feet!!

We've also begun learning about pirates, in particular Blackbeard and Anne Bonny. We listened to the information and then wrote our own mind maps ready for our information reports next week.

Science

On Monday we observed and recorded the birds that visited our school environment. We had to record on a sheet and the information will be forwarded to the RSPB for their Big Schools Birdwatch 2019. We were fascinated that there were three oystercatchers on the field.

Computing

Badgers are learning about algorithms. They then had to write their own and test it on a friend.

Music

The Owls went into the hall for music. They loved learning about dynamics and took turns to conduct the class to make either soft or loud music.

PE

The focus was on making up a sequence of 3 different movements, trying it on the floor first before using the apparatus. We enjoyed using the wall bars.

Reading Activities

We listened to the story *The Pirates Next Door* and then completed activities relating to the book. Some of us went on bug club.

Friday afternoon was an opportunity to enjoy investigation time. Many children chose to show their interest in pirates and make posters and pirate ships!
